SHIWA SHINICHI
ISHIBASHI SATOSHI(54) DEVICE AND METHOD FOR MEASURING THREE-DIMENSIONAL POSITION, AND RECORDING MEDIUM
RECORDING THREE- DIMENSIONAL POSITION MEASUREMENT PROGRAM

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a device and a method for measuring a three-dimensional position capable of predicting a marker position in real time at all times and measuring the three-dimensional position based on the predicted data even after a marker is hidden and a recording medium recording a three-dimensional position measurement program.

SOLUTION: By predicting and storing the marker position at all times, even in the case that the marker is hidden, the three-dimensional position of the marker can be measured in real time based on the stored data.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the
examiner's decision of rejection or application converted
registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of
rejection]

[Date of extinction of right]
